DETAILED ACTION

1. Receipt is acknowledged of Applicant's Prior Art Statement, filed September 26, 2001.
2. Claims 1-28 are presented for examination.
3. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-14, drawn to a method of polishing, classified in class 451, subclass 57.
 - II. Claims 15-28, drawn to an apparatus for polishing, classified in class 451, subclass 5.
4. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the process may be performed by another apparatus, such as one lacking a substrate transfer station and computer controller.
5. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
6. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
